SERENITY

TREATMENT AFTERCARE

HD BROWS

To keep your High Definition Brows looking salon perfect every day, proper care and maintenance is required.

- Follow your stylist's recommendations and avoid tweezing in between appointments.
- Avoid the use of make-up and facial cleansers other than High Definition Brows branded products around the brow area for the next 24 hours.
- Avoid prolonged contact with direct sunlight, the use of sunbeds, saunas, steam-rooms and swimming pools for 24 hours after the procedure.
- Avoid exfoliators and anti-ageing products around the brow area for 3 days either side of the treatment.
- It is advisable not to use any fake tanning products on the face for around 2 or 3 days either side of the treatment. If you do wish to use a fake tanning product on your face, apply a barrier to the hair and small area around the brow prior to tanning, to prevent discolouration of your tint.
- Remember your results will be darker and more defined immediately after your treatment. Makeup is not permanent and tint will fade depending on the frequency of cleansing.
- You must inform your High Definition Brows Stylist immediately should you experience any prolonged swelling, itchy rash, bruising, skin grazing or cuts so they can advise you on the correct procedure to follow

BROW LAMINATION

- Do not get your brows wet within the first 24 hours. This includes but is not limited to excessive moisture and steam from saunas and baths.
- Avoid exfoliators and anti-ageing products around the brow area for 3 days either side of the treatment.
- Do not apply makeup or receive any treatments around the brow area within the first 24 hours.
- After the treatment, you will be given a brow conditioner to use daily.
- Avoid rubbing or excessive touching of the brows.
- Avoid sleeping on your front within the first 24-48 hours.

LVL LASH LIFT

- For the first 24 hours after your treatment it's important not to allow any water to come in to contact with your lashes. Getting your lashes wet will cause the lash lift to drop and be ineffective.
- For 2 days afterwards do not steam your face, use a steam bath, swim or wash your face with hot water
- Use a disposable mascara wand to brush your lashes into place after cleansing/sleeping
